

LEAF DEFIER®

GUTTER FILTRATION SYSTEM

BENEFITS

FXI is the worldwide leader in polyurethane foam technology and innovator of gutter filtration. With more than 60 years of R&D experience and over 400 patents, FXI's dedication to improving quality of life through the introduction of high performance and innovative is unmatched. This dedication and commitment to performance and innovation is clearly evident with the STANDARDS established for our gutter filtration product lines. Below is a brief quality / performance summary of our High Performance Professional Leaf Defier Gutter Filtration line.

Quality:

- Compression Force Characteristics: Leaf Defier proven to have 60% Higher Compression Force Stability Vs. Commodity Wholesale (coated and non coated) Foam Filters. (Physical Testing Report Copyright 2007)
- Degradation Characteristics Leaf Defier proven to have ZERO surface erosion and degradation Vs. Commodity Wholesale coated and non coated) Foam Filters. (Physical Testing Report Copyright 2007)
- Fire Test Characteristics Leaf Defier is the ONLY product to meet or exceed UL Fire Rating Standards (UL-94H and UL 84) (Physical Testing Report Copyright 2007)
- Leaf Defier's proprietary multipolymer base foam formula offers greater density and physical strength retention than competitive products to ensure maximum quality gutter filtration in even extreme weather conditions.

Third party support:

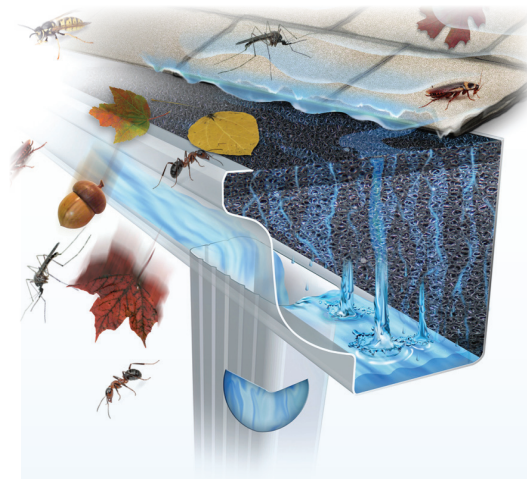

- Clinically Tested and Certified to Prevent the Infestation and Breeding of Insects within Rain Gutters
- Green Product Reviewed / Green-Buildings' team of accredited green building professionals performed a benchmark analysis of Leaf Defier® against Green-Buildings' proprietary Green Building Accepted Environment Principles Process and determined that Leaf Defier® is a Viable GREEN Building Product. (See Published Report Dated September 25, 2009)
- Leaf Defier has been reviewed and accredited by Multiple Industry Renowned and Leading Entomologists from the University of Florida.

Support:

- Leaf Defier is the only product-of-its-kind to include a 25-year, No-Clog manufacturers warranty based on the physical and performance capabilities demonstrated nationwide during thousands of installations over the past decade.
- Dealers are able to access extensive library of marketing tools and support programs.
- Only Leaf Defier is available in multiple sizes (5" and 6" K-style, 5" and 6" half rounds, etc.) to fit all common rain gutter configurations.

Performance:

- Leaf Defier flow rates exceed 28 inches of rain per hour, which is nearly three times the national standard for rainfall volumes and the best among all current gutter protection systems. In addition, Leaf Defier systems exceed ASTM Standards for exterior Grade Urethanes.
- Leaf Defier will not void roofing, siding, or gutter warranties since its recommended installation does not require nails, screws, tar, or sealants.
- Leaf Defier has been used by tens of thousands of satisfied customers. Leaf Defier is proven to continue to provide exceptional performance far into the future.
